

We're proud to offer this limited edition Outdoor Research style, while supplies last.

Engineered for extra insulation, the Coldsnap Down Jacket is ideal at base camp or around town.

- Constructed of bluesign® approved materials
- 53% recycled Pertex® Quantum Eco 100% polyester ripstop shell and lining
- 18.9-ounce, RDS-certified 700+ fill-power down insulation throughout body and sleeves
- 85% recycled VerticalX™ Eco insulation in collar, shoulders and cuffs to eliminate cold spots and increase weather resistance in these exposed areas
- Feminine collar
- Front placket over center front zipper
- Zippered hand pockets
- Cuff gaiters with thumb loops
- Suede patch with contrast OR logo on left sleeve
- Adjustable hem
- Open left chest for decoration
- Please size down for a closer-to-the-body fit.
