

We're proud to offer this limited edition Outdoor Research style, while supplies last.

Engineered for extra insulation and loft, the Coldsnap Down Vest is ideal at base camp or while exploring around town.

- Constructed of bluesign® approved materials
- 53% recycled Pertex® Quantum Eco 100% polyester ripstop shell and lining
- 13.2-ounce, RDS-certified 700+ fill-power down insulation throughout body
- 85% recycled VerticalX™ Eco insulation in collar and shoulders to eliminate cold spots and increase weather resistance in these exposed areas
- Exposed center front zipper
- Zippered hand pockets
- Packable left hand pocket doubles as a vest stuff sack
- Suede patch with contrast OR logo on left hem
- Adjustable hem
- Open left chest for decoration
- Please size down for a closer-to-the-body fit.
